

Model : STPCAT5EJACK

Description: Cat.5E RJ45 Shielded 110 Type Keystone Jack

CAT 5E Shielded U-Style Keystone Jack is designed with the user in mind—complete with a T568 A/B wiring guide on each jack. To insure durability they are made of phosphor bronze IDC contacts, gold plated prongs, and a fire-retardant plastic housing. The CAT 5E U-Style line of keystone jacks were engineered to simplify the termination helping you save time and money with features like easy to read wiring labels and 90° 110-type IDC termination. This jack is fully shielded in a metal case and designed to protect your signal against electro-magnetic noises that may interfere with your signal.

Features:

- CAT 5E Performance Speeds Of Up To 350 MHz
- 8 Pin x 8 Conductor For Streamlined Connection
- Gold-Plated Nickel Contacts Provide Corrosion Resistance And Signal Conductivity
- Easy To Read Wiring Label To Facilitate Installation
- Phosphor Bronze IDC Contacts Ensure Excellent Conductivity and Durability
- EIA/TIA-568 compliant
- Shielded 110 type punch down
